THE MINNEAPOLIS STAR

reward of hard work and unusual abilities as an educator.

Her task at Dowling school, which she has headed since 1927, called for more than ordinary insight, tact and executive capability. It is not over-estimating matters to say that her regime in a great extent has made the school what it is today—a model for crippled children institutions throughout the country. She has left a legacy of wide and sympathetic management which should be an invaluable aid to her successor at the school.

If only somebody could get the bank note out of hiding by Christmas.

Poems That Live

By Francis Wilson (1811-1849)  
Translated by Andrew Lang

Goodbye, the stars are in my eyes;  
Farewell, farewell, my pretties;  
Farewell, of women born the best;  
Goodbye, the address of goodbye,  
My sad heart leaves you to your rest;  
Farewell, from you my minutes  
Farewell, from you my minutes  
And more by they have I been blessed,  
You, the first I ever loved, my friend;  
Goodbye, the last of my goodbyes.

Everybody's Ideas

By Helen Landgren

Disarmament pacts were signed by the Women's International League for Peace and Freedom in 28 countries in the hope of influencing the disarmament conference. Many more nations, who mean business, will do some real disarming—just just what matters.

More Advice

APPOINTMENT of a new federal advisory committee on unemployment relief recalls the old story of the relief meeting, after long delay, it was decided to give the poor three cents. There isn't much nourishment in advice, but a tremendous amount of it has been broadcast the last couple of years.

Examinations for Fortune Tellers

New York state legislation in a few more weeks will set up the activities of fortune tellers and others who promise, for a fee, to foretell the future.

Definitions

Their careless driver is a disconcerting drive. And the disconcerting driver is merely one whose driving methods can be explained by this deep-bodily complex:

"The first, you poor fish. Make way!"

Whoever Wins, Cuba Loses

CUBA is suffering "president trouble" and showing all the symptoms that have characterized similar disturbances among her Latin American neighbors.

Paragaphs

Close search of prison cells and other places may be necessary to locate those New York magistrates.

Think Police Effort Misguided

A "War Courser of Clayton Kilday" I feel a great majority of respectable Minneapolis citizens would rather put up with a newspaper and read of the police department going after a man who was engaged in the killing of his hands off by her, officer DeLaurance than to read about some unfortunate compelled, through dire necessity and inability to secure employment, to sell a little home-nerve in order to do a merger operation, arrested and his car, his home plundered by their ministrations, rather than his gibes, wild gags.

Upsetting Reno Precedents

SOME kind of a prize medal should be awarded Lady Inevitable, former mail car pilot, for unusual and heroic behavior on the part of a divorcee.

Minnetonka Lake Level

I am sure your paper is interested in the water levels of lakes in Minnesota and especially in Lake Minnetonka. The level is low and low water in the state. Right now the water in the lowest in its state. The water in the lowest in its state. The water in the lowest in its state.

Church Threatens Excommunication as It Defies Spain

Cardinal Segura Refuses to Recognize Republic's Decrees

Madrid, Aug. 21.—Formal refusal of the Catholic church to recognize validity of recent decrees by Spain's republican government affecting the status of religious orders, was contained in a pastoral letter issued by the deposed primate, Cardinal Segura. "We have witnessed in our country," the church does not possess arms, but it has two swords. The first lies in the hands of the divine founder. The second is in ecclesiastical possession." Cardinal Segura added that the republic's decrees "are in violation of the rights of the church, which is the guardian of the faith." The republicans, he said, "are in violation of the rights of the church, which is the guardian of the faith." The republicans, he said, "are in violation of the rights of the church, which is the guardian of the faith."

The Regular

THE NEWSPAPERS are telling about the President explaining why he did not reply in person to the letter from Governor Franklin Roosevelt, asking about what was going on between the governments of Canada and the States about devolution water power from the St. Lawrence and Niagara rivers. That makes me mad. I wonder the President never writes, asking about what was going on about a lot of things.

One Minute Pulpit

There are many who think these words unto them; but they never come to them. They will do all that they can, but they will not answer them.—Jeremiah
